**The Closing Conference of the project LIFE14 CCA/PL/000101
LIFERADOMKLIMA-PL „Adaptation to climate change through sustainable
management of water of the urban area in Radom City”**

24 November 2022, 10.00 a.m. – 3.00 p.m.

Radom, Municipal Cultural Centre AMFITEATR

Rado~Klima

The aim of the conference:

To share knowledge and experience of the blue-green infrastructure solutions implemented in Radom between 2015 and 2022 for the adaptation of the city to climate change, with the hope that the presented approaches and solutions innovatively implemented in Radom will be applied in other cities in Poland and abroad and widely disseminated by various actors, both private and public.

The Conference Agenda:

Moderator - **Szymon Bujalski** - journalist for climate

10.00-10.30 – welcome session

Radosław Witkowski – Mayor of Radom

Andrzej Muter – Head of the LIFE Department, National Fund for Environmental Protection and Water Management

Broadcasting of the project film introducing the issues of the Conference

SESSION I: 10.30-11.30

Anthropogenic climate change and its impact on municipalities and Blue - Green Infrastructure as an adaptation measure

1. Anthropogenic climate change and its consequences

Prof. dr hab. Szymon Malinowski - Director of the Institute of Geophysics, University of Warsaw, Chairman of the Advisory Panel on the Climate Crisis to the President of the Polish Academy of Sciences

LIFE14CCA/PL/000101

www.life.radom.pl

Broadcasting of a two-minute film of implementations within the LIFERADOMKLIMA-PL project

2. Ecohydrology and ecosystem biotechnologies in adaptation to climate change.

Dr. Tomasz Jurczak – Head of the UNESCO Chair of Ecohydrology and Applied Ecology at the University of Łódź, coordinator of the LIFE project at the University of Łódź

Broadcasting of a two-minute film of implementations within the LIFERADOMKLIMA-PL project

3. Integrated application of innovative water management methods at river basin by coordination of local governments – project LIFE LOGOS 4 WATERS.

Szatcker Petra, PhD – LIFE LOGOS 4 WATERS project manager, Coordination Office for Municipalities, Ministry of Interior of Hungary

Broadcasting of a two-minute film of implementations within the LIFERADOMKLIMA-PL project

4. Blue-Green Infrastructure as critical infrastructure in the age of climate change.

Dr. Iwona Wagner - Environmental Specialist in the LIFE Project at FPP Enviro, UNESCO Chair of Ecohydrology and Applied Ecology, University of Łódź

11.30 - 11.40 Break

SESSION II: 11.40-12.45

Effects of the adaptation measures applied under the LIFE project

1. Ecohydrological adaptation implementations in the river valleys of Radom.

Elżbieta Stanke – director of the LIFE project at Radom City Waterworks.

Broadcasting of a two-minute film

2. Small Blue-Green Infrastructure elements as tools leading to increasing the city's resilience to climate change.

Paweł Szałański – coordinator of the LIFE project at FPP Enviro Ltd.

Lars Briggs – owner of FPP Enviro Ltd.

Broadcasting of a two-minute film

3. Non-investment effects of the LIFE project.

Katarzyna Jankowska – coordinator of the LIFE project at Radom City Hall, Chief Specialist in the Department of EU Funds

12.45 - 13.10 Break: broadcasting of the project film (20 minutes)

SESSION III: 13.10-14.30

Discussion Panel on „Blue-Green Infrastructure and climate change adaptation” - how to use Radom's experience and support cities in implementing similar solutions

LIFE14CCA/PL/000101

www.life.radom.pl

1. **Actions of the Ministry of Climate and Environment in supporting cities in adaptation activities.**
Wojciech Augustowski – Head of the Department for Cities and Climate Change Adaptation of the Department of Air Protection and Urban Policy, Ministry of Climate and Environment
2. **Planned support for cities under the European Funds for Infrastructure, Climate and Environment Programme.**
Piotr Czarnocki - Counsellor, Department of European Funds, Ministry of Climate and Environment
3. **Without the involvement of cities we will not stop climate change - good practices from Radom.**
Zdzisław Czucha – advisor for cities, the Association of Polish Cities
4. **The role of NFEPWM in implementing the LIFE program in Poland.**
Andrzej Muter – Head of the LIFE Department , National Fund for Environmental Protection and Water Management
5. **Experience from the implementation of the LIFERADOMKLIMA project.**
Elżbieta Stanke, dr. Iwona Wagner – representatives of the LIFERADOMKLIMA project

During the panel discussion, questions from the conference participants` chat will be asked

14.40-15.00 – SUMMARY AND CONCLUSION OF THE CONFERENCE
